ABOUT THIS COFFEE

Specialty Geisha from Finca La Nueva Alianza, in the Santa Teresa district (La Convención, Cusco, Peru), grown at 1,600–1,800 m a.s.l. A washed coffee, harvested on 12 May 2026, with 10% moisture and a 75% exportable yield (parchment to green).

Geisha (also spelled Gesha) is an Ethiopian landrace with low productivity per plant. At latitudes like Cusco's (5–15°), World Coffee Research puts its optimal altitude above 1,300 m, where it reaches its highest quality potential.

EXPORT

PACKAGING
69 kg jute bags with GrainPro liner, or vacuum-sealed bags in boxes for microlots. Confirmed according to lot volume.
